

As writers we will be writing using imperative verbs to create instructions for the mummification process. We will be looking at punctuation for speech to write our own narrative based on our class text. Using our historical knowledge, we will be writing recounts and newspaper articles about Howard Carter's discovery of Tutankhamun. In grammar lessons, we will be learning about the apostrophe and using brackets in our writing.

As readers we will be looking at the different level of detail required when responding to reading comprehension questions. We will be learning how to appropriately use evidence from a given text to support our opinions. We will also be developing our vocabulary, using context to help us.

As mathematicians we will use formal written methods for multiplication, including the grid method and short multiplication method. We will also be looking at methods for division and solving multi-step word problems using the bar model as a visual method to help us.

As thinkers we will be exploring the question: 'Who has Stewardship of the World?' We will be thinking about the role of Christians when caring for the planet and thinking about the things we can do as individuals to make a difference.

As musicians we will be using the Kodaly songs and games to reinforce new notes and rhythms. We will also learn how to play notes on the violin and recorder.

As historians we will be studying Ancient Egypt. We will be researching different pharaohs, as well as looking closely at the discovery of Tutankhamun. We will also be reading Ancient Egyptian myths and learning about the farming techniques that were used.

As scientists we will be studying plants and life cycles. We will be dissecting a flowering plant to learn the different parts of a flower. We will then be researching life cycles of different animals.

As linguists we will be looking at the Jacques et L'haricot Magique story (Jack and the Beanstalk) and learning vocabulary as we read along.

As artists we will be making Pharaoh Masks from Ancient Egypt. We will be using a combination of visual and tactile ideas and combining materials in different ways. Our masks will show texture, pattern and embellishment.

As information technologists we will be developing our understanding of computer systems and how information is transferred between systems and devices. We will explain the input, output and process aspects of a variety of different real-world systems.

Links to school values

Compassion – We will learn to show compassion through our RE topic, understanding how important it is to care for our planet.

Trust – We will learn to trust the opinion of others when working a part of a group.

Forgiveness – We will learn how God shows us forgiveness in RE.

Endurance – We will show endurance when reading more challenging texts in English this term.
