

HEMPLAND PRIMARY SCHOOL

DEMOLITION OF EXISTING SCHOOL AND CONSTRUCTION OF REPLACEMENT TWO STOREY SCHOOL BUILDING

HEMPLAND PRIMARY SCHOOL, WHITBY AVENUE, STOCKTON LANE, YORK YO31 1ET

PUBLIC CONSULTATION

We are writing to inform you of the exciting plans for Hempland Primary School. The school has been successful in securing funding for replacement school facilities under the Dept for Education School Rebuild Programme.

EXISTING SITE PLAN

PROPOSED SITE PLAN

The new school will comprise a two-storey school building sitting within the centre of the site (behind the existing building). Once constructed, the existing school buildings will be demolished and replaced with additional play space, landscaping and parking. This proposal is only seeking to improve school facilities for all involved in Hempland Primary School and the wider community. Pupil numbers and staff numbers will not be changing as a result of this development.

A planning application for these proposals is due to be submitted to City of York Council this year, however ahead of submission, ISG Construction (main contractor), the Department for Education and Pathfinder Multi Academy Trust would welcome your views of our proposals.

We are keen to get the views of residents, parents and all local stakeholders who have an interest in the development. We have arranged an exhibition day for you to come to see draft drawings and offer an opportunity to comment on the proposals. This will be held on:

DATE: THURSDAY 6TH JULY 2023

VENUE: HEMPLAND PRIMARY SCHOOL (MAIN HALL), WHITBY AVENUE, STOCKTON LANE, YORK YO31 1ET

TIME: 3:00PM UNTIL 8:00PM

Please report to reception on arrival. Members of staff from the Trust, the design team and the appointed contractor will be available to talk you through the proposed scheme and answer any questions you may have. Your feedback will be valuable in helping to shape the scheme before submission of an application for planning permission later this year.

We have circulated this invitation to all local residents within the nearby catchment, however, please feel free to extend this invitation to anyone who may have an interest in this project. If you have any questions about the event or the development, please do not hesitate to contact NTA Planning, the planning consultants for this project at info@ntaplanning.co.uk. Alternatively, if you cannot attend the event or do not have access to the internet, please contact our head office on 02076363961 and we will happily provide further information via post. We look forward to seeing you there.
